

## CALL FOR POSTERS

The 13th ACM/IEEE Symposium on Architectures  
for Networking and Communications Systems

ANCS 2017

<http://www.ancsconf.org>

May 18-19, 2017  
Beijing, China

### IMPORTANT DATES

Poster abstract submission deadline (extended): March 27, 2017  
Author notification for posters: April 3, 2017  
Camera-ready for poster abstract: April 10, 2017

### POSTER SESSION OVERVIEW

The poster session will provide a forum for researchers to showcase their exciting early work. Areas of interest are the same as those listed for regular papers. Posters need not describe complete work, but they should have at least preliminary results to report so that feedback on the ongoing work can be obtained from knowledgeable conference attendees. We especially encourage student poster submissions where the student is the first author. Posters will be evaluated based on their technical merit and innovation as well as their potential to stimulate interesting discussions and exchange of ideas. Submissions from both industry and universities are encouraged. Two-page extended abstracts will be published in the conference proceedings and upon acceptance of Xplore the content will be made available to Indexers including EI.

### SUBMISSION INSTRUCTIONS

We recommend that a poster extended abstract has the format of a self-contained short paper including introduction, background, method, and result sections. Submissions must follow the 9pt template at: <http://www.acm.org/publications/proceedings-template-16dec2016>, and be submitted in PDF format. The style is identical to that used for main conference submissions (<http://www.ancsconf.org/submission>) except that poster submissions are limited to no more than 2 pages.

Please email poster abstract submissions as PDF attachments to:

[ancs2017poster@gmail.com](mailto:ancs2017poster@gmail.com)

with the subject line reading "ANCS 2017 POSTER SUBMISSION: (poster title)"  
Please include the following information in the body of your email:

1. TITLE;
2. AUTHORS; e.g., First1 Last1 (Afflication1), First2 Last2 (Afflication2)
3. EMAIL; e.g, email1@affiliation1, email2@affiliation2
